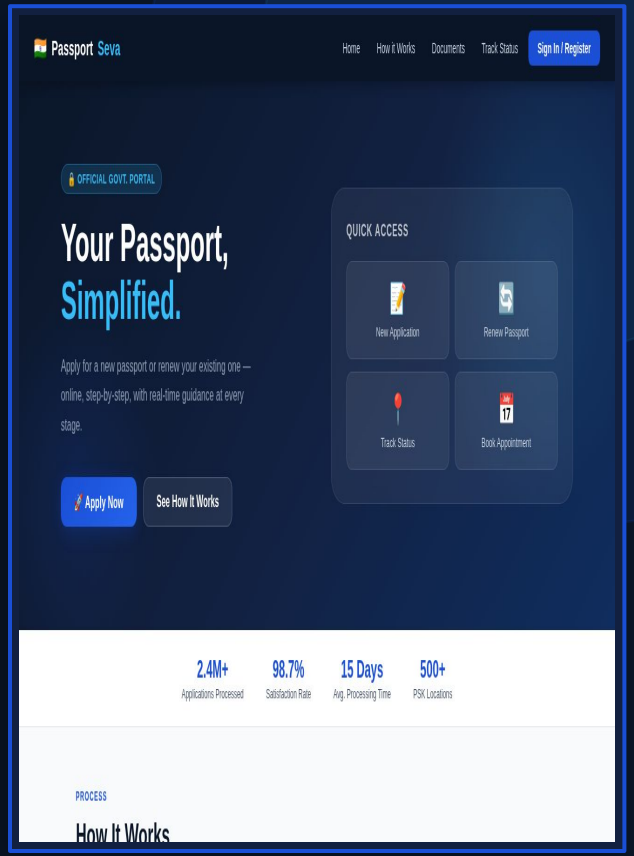
Passport Seva

India's Passport Application — Redesigned for Real People

7 Screens | Step-by-Step Flow | HTML / CSS / JS | Responsive



Submitted by - Chandrashekhar Tyagi

THE PROBLEM

Why did India's passport portal need a redesign?

50+

Fields on ONE form

No steps, no guidance

0%

Progress saved

Refresh = start over

No

Document Checklist

Users don't know what to bring

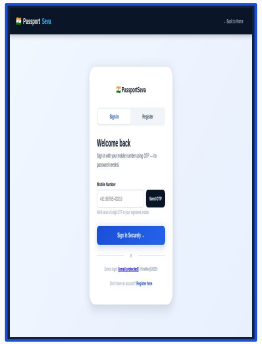
3+

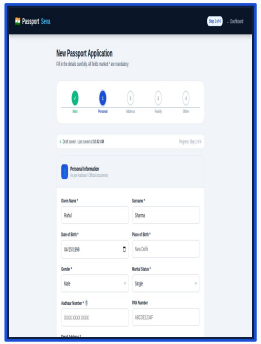
Pages to book a slot

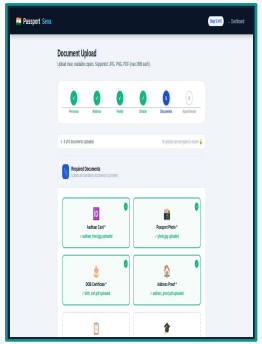
Date → slots → confirm

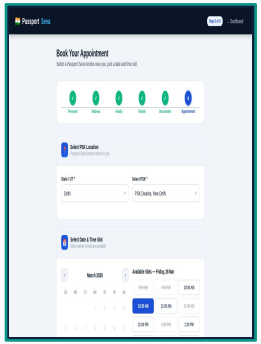
THE SOLUTION — 6 Simple Steps

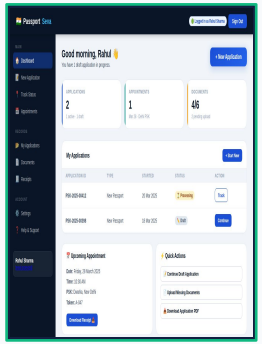
1. Create Account
2. Fill Form
3. Upload Docs
4. Book Appointment
5. Visit PSK
6. Receive Passport

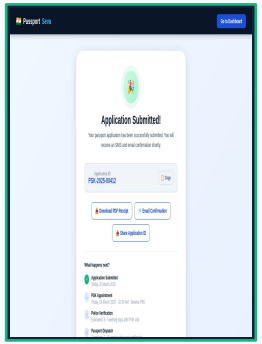






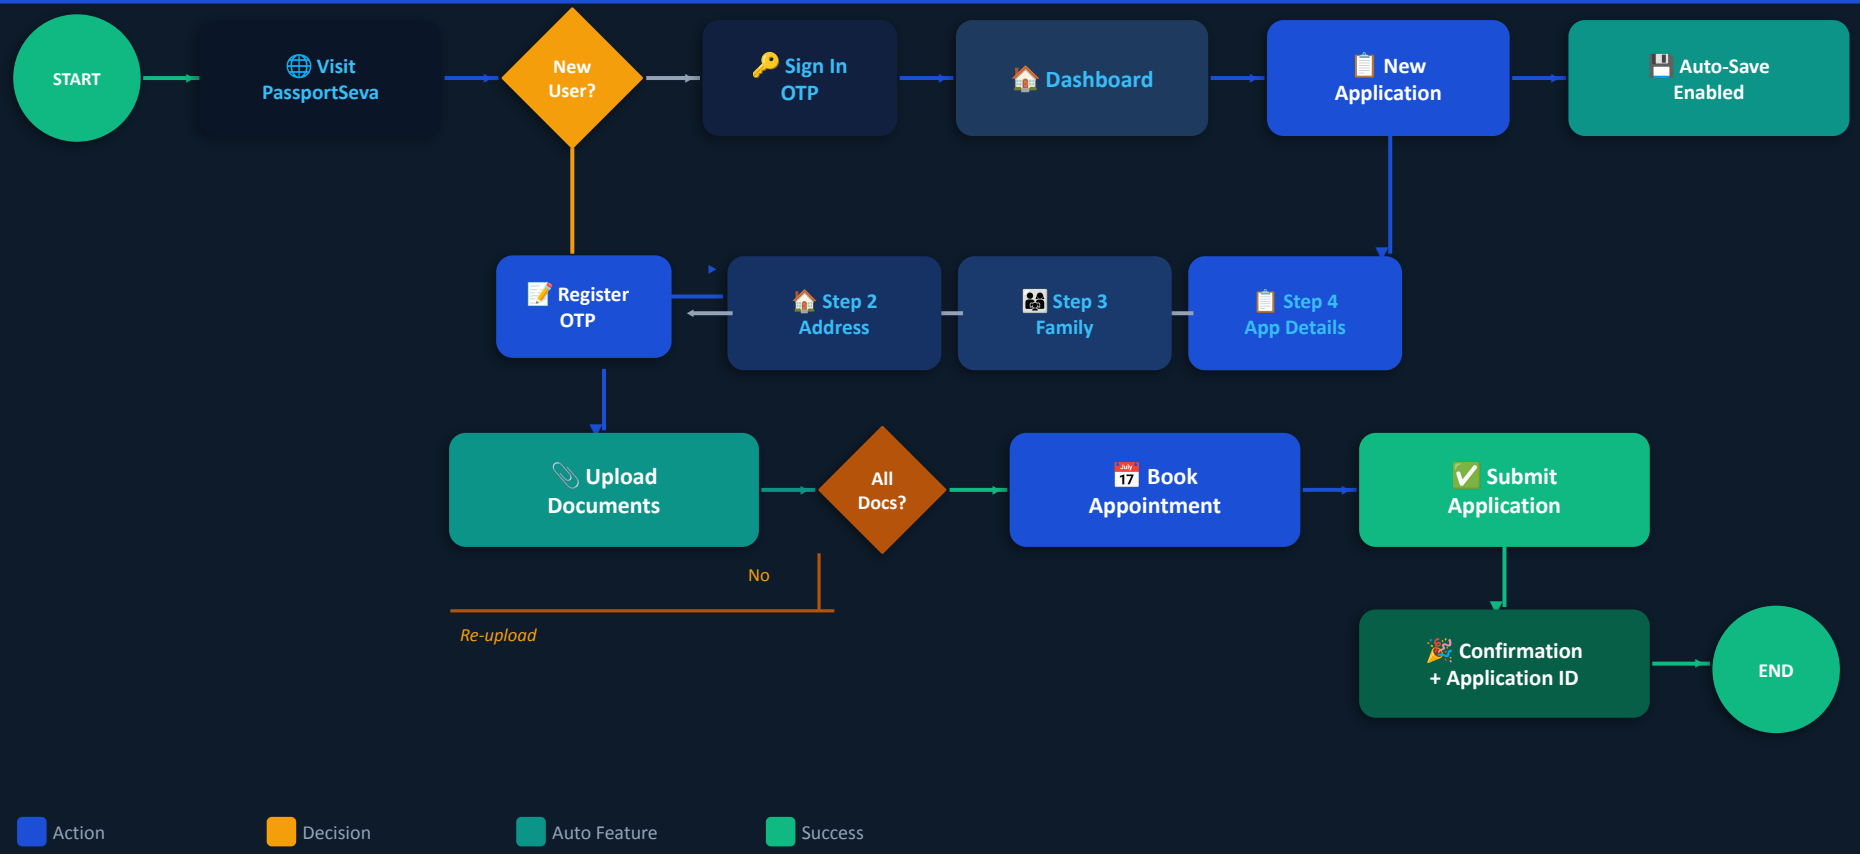


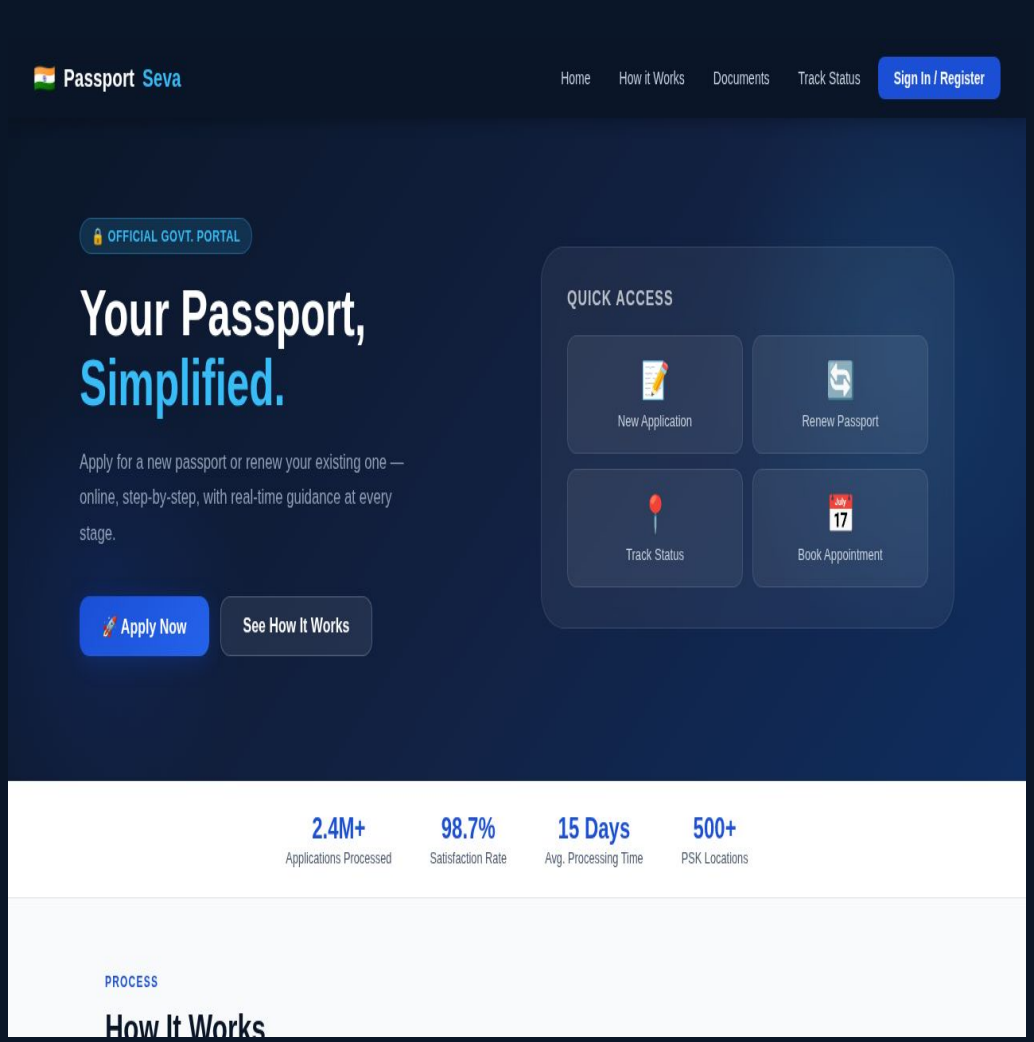




USER JOURNEY FLOWCHART

End-to-end passport application flow





01

Homepage

Landing Page

Trust Badge

Govt portal badge + stats strip builds instant credibility

Quick Access

4 shortcuts for returning users — no scrolling needed

Social Proof

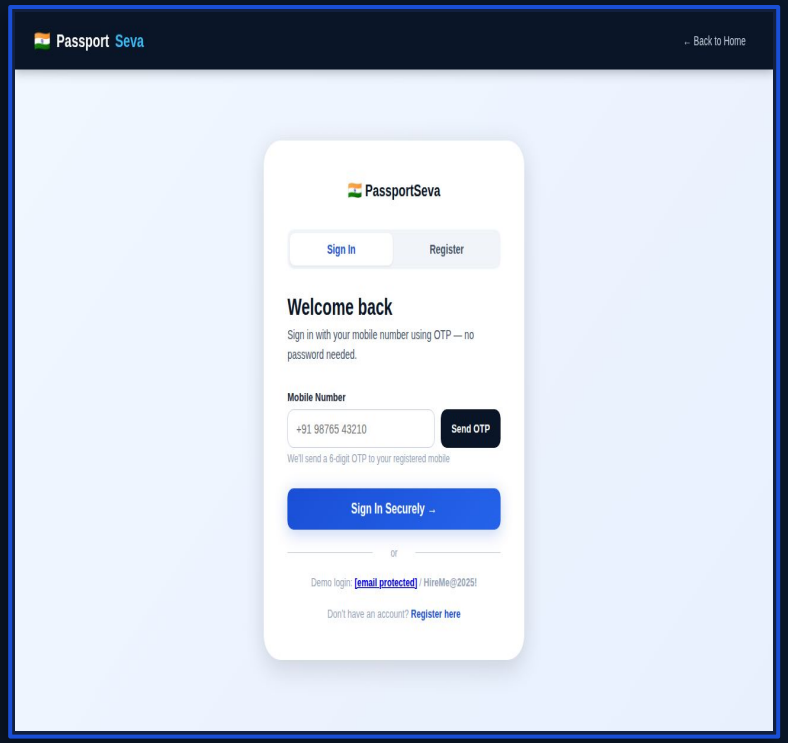
2.4M+ apps, 98.7% satisfaction shown above the fold

Clear CTA

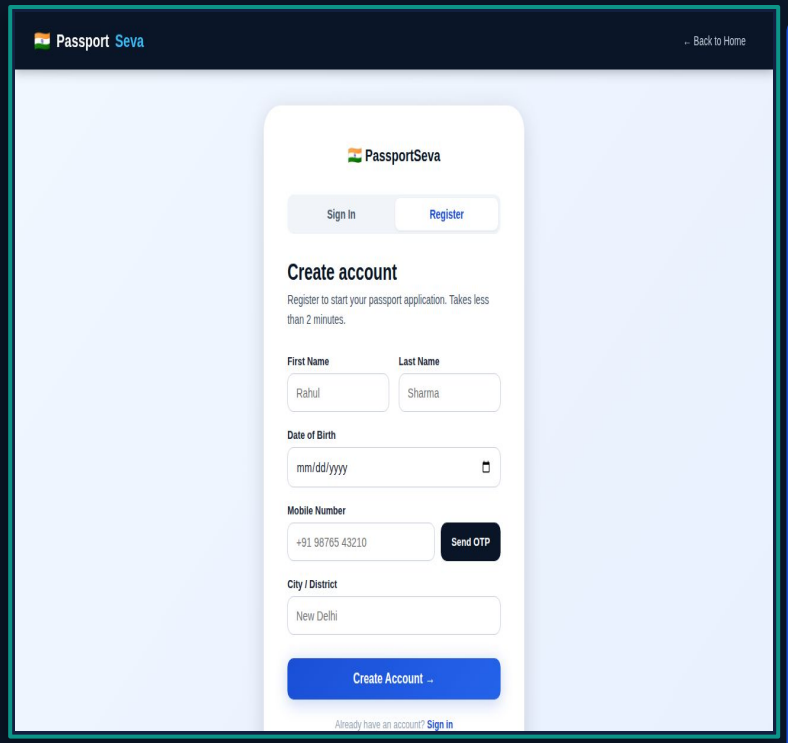
Apply Now stands out with gradient + shadow button

02 Sign In / Register

OTP-only auth — no passwords



Sign In



Register

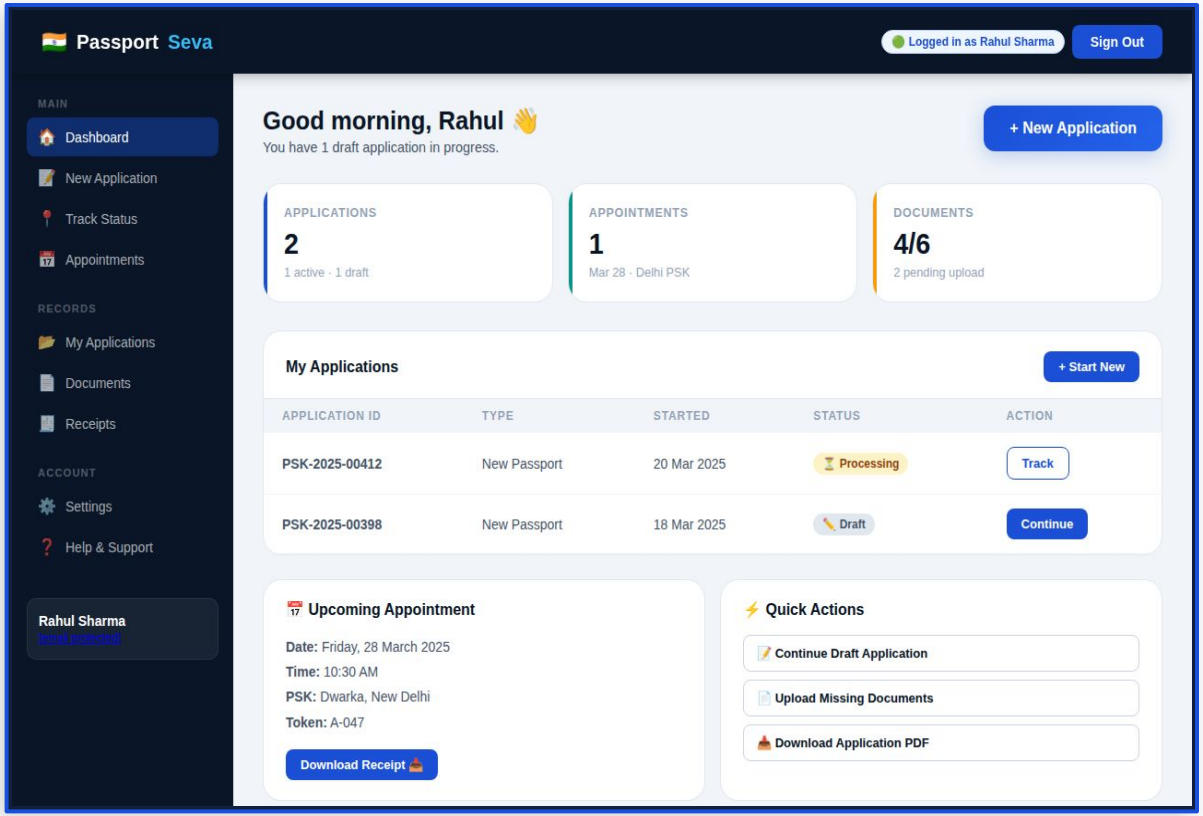
📱
OTP only

30s countdown

Zero password

Works on all phones

03 User Dashboard



Status Cards

3 metric cards: apps, appointments, documents

Apps Table

Status badges: Draft, Processing, Submitted, Ready

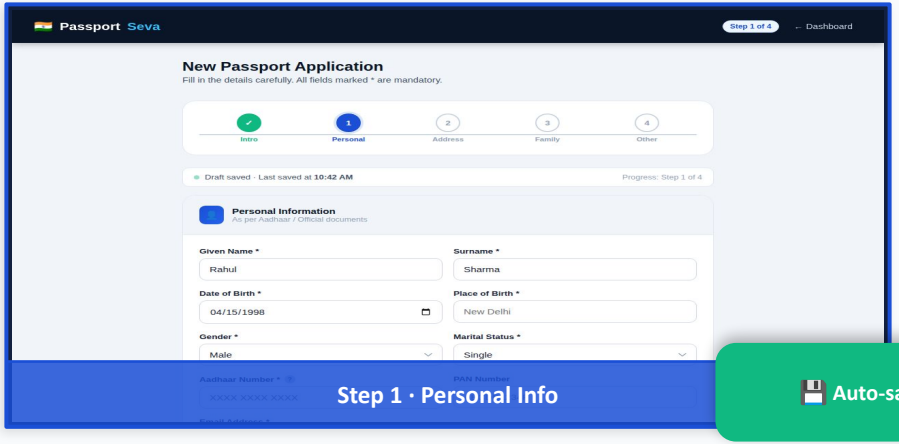
Appointment

Date, time, PSK, token — always visible

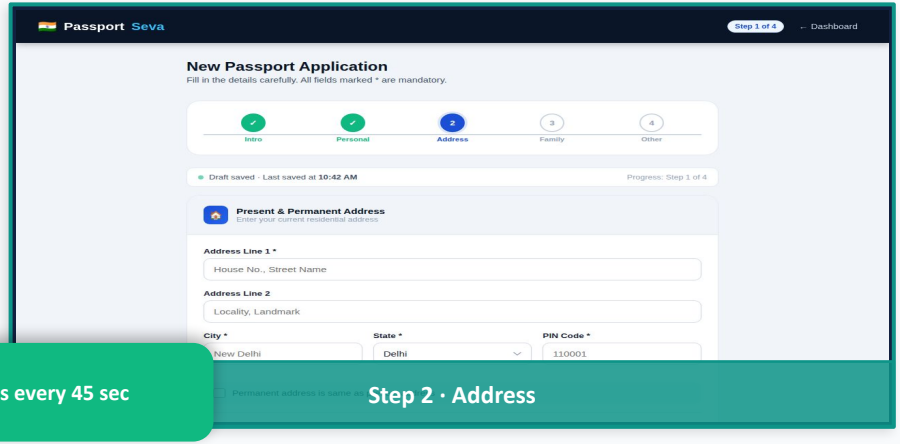
Quick Actions

Continue draft, upload docs, download PDF

04 Application Form — 4-Step Wizard

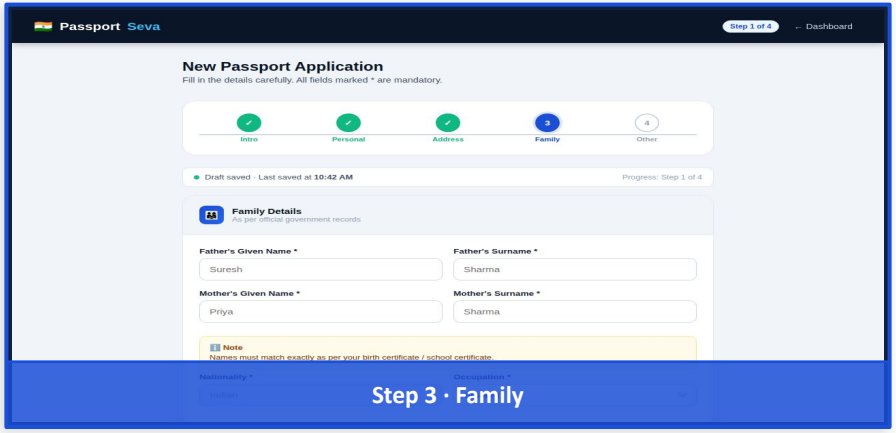


Step 1 · Personal Info

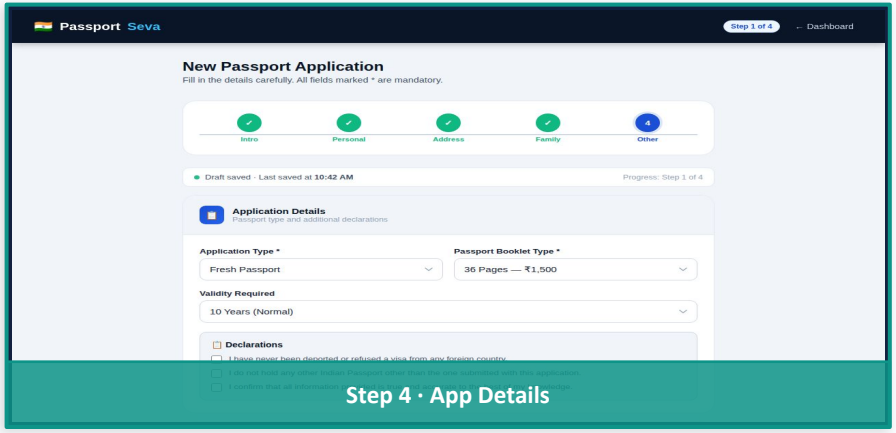


Step 2 · Address

💾 Auto-saves every 45 sec

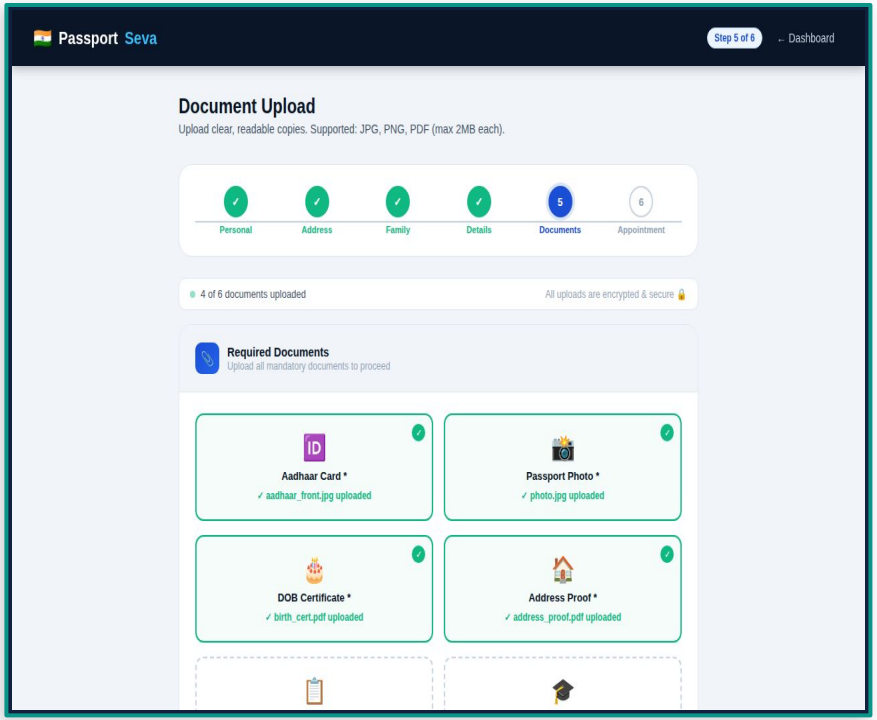


Step 3 · Family



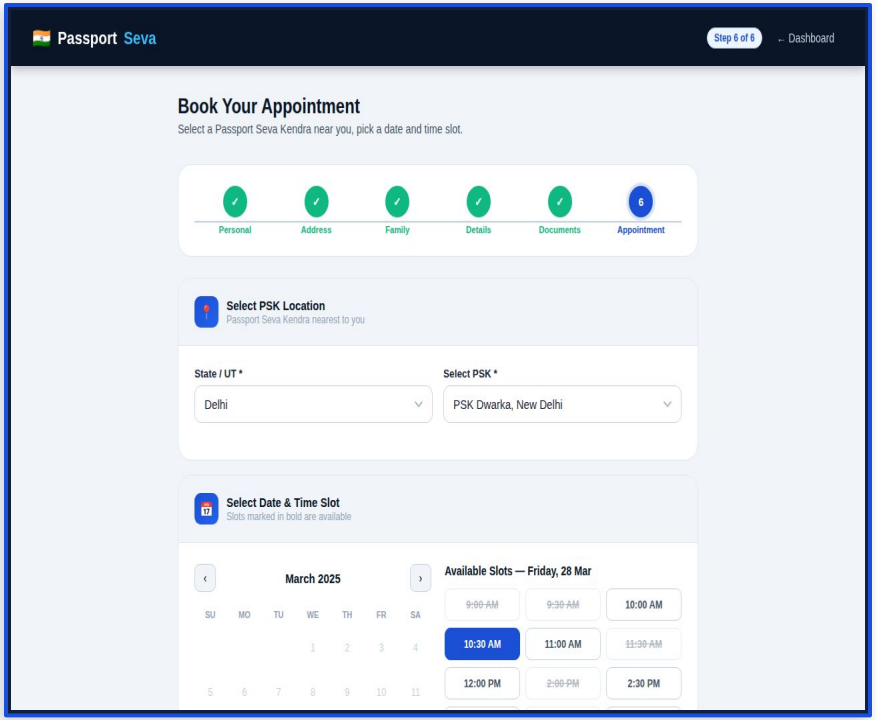
Step 4 · App Details

05 + 06 Document Upload & Appointment Booking



📎 Card grid — not plain file inputs

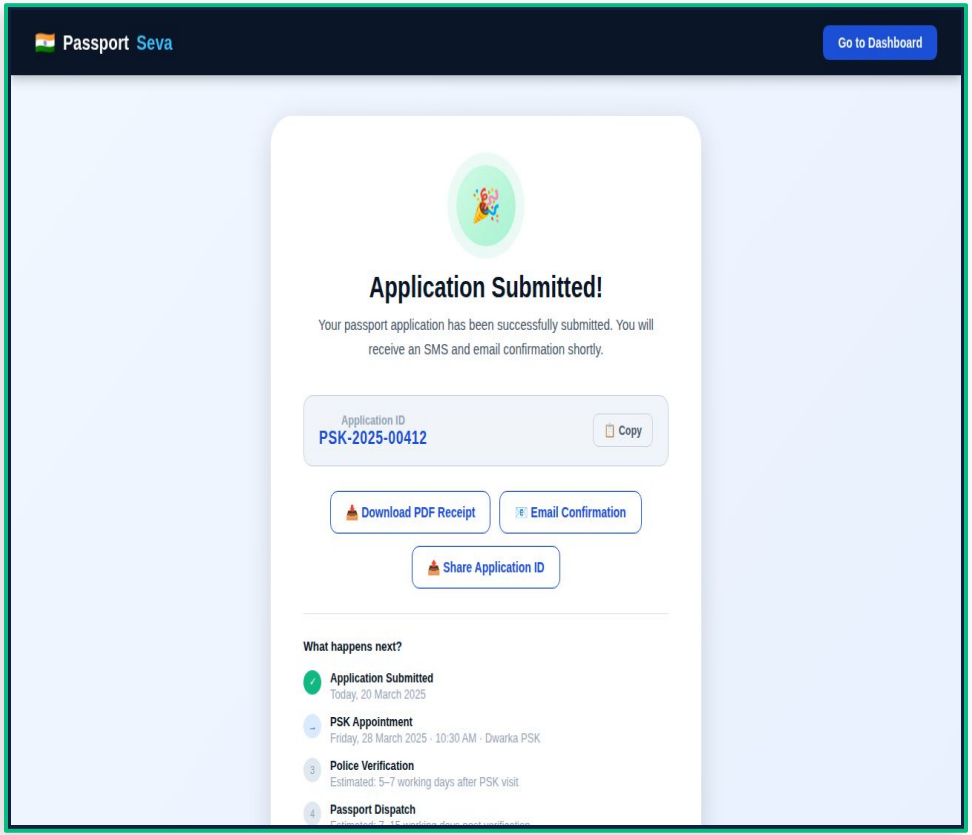
✅ Click to upload → green border



📅 Calendar + slots on ONE screen

🔴 Full slots = strikethrough

07 Confirmation Screen



What happens after submission

- ✓ **Application Submitted** — *Day 0* — Day 0
- 2 **PSK Appointment Visit** — *Day 8* — Day 8
- 3 **Police Verification** — *Day 13–15* — Day 13–15
- 4 **Passport Dispatched** — *Day 22–25* — Day 22–25
- 5 **Doorstep Delivery** — *Day 28–30* — Day 28–30

📥 PDF Receipt 📧 Email Confirm 📤 Share ID

Key UX Features — Before vs After

Feature	❌ BEFORE	✅ AFTER
📝 Form	1 long form with 50+ fields	4-step wizard with progress bar
💾 Autosave	No save — refresh loses everything	Saves every 45 sec + on each step
📎 Uploads	Plain file inputs, no guidance	Visual cards with status + guidelines
📅 Booking	3 separate pages to pick a slot	Calendar + slots on ONE screen
✅ Confirmation	Basic 'submitted' message only	ID copy + PDF + email + timeline

Tech Stack & File Architecture

index.html

45 KB

- 7 screen panels
- Semantic HTML
- ARIA labels
- Navigation links

styles.css

37 KB

- CSS variables
- Component classes
- Animations
- Media queries

script.js

15 KB

- Screen routing
- Form wizard
- Autosave system
- Toast manager

⚡ **Zero frameworks • Total < 100 KB • Works with any backend**

PassportSeva

Designed for every Indian citizen — not just the tech-savvy ones.
